

Example of a title screen.

The player has just started a level. The main character spawns on the blue star.

The player has moved around for a bit, collecting one gold coin (regular reward worth 10 points) and one green gem (bonus reward worth 15 points). The second bonus is active right now.

After the player has collected all regular rewards and 3 of the 4 bonus rewards, they have decided to finish the level by moving to the red star. They haven't stepped on either punishment.
